

Landscape Committee Meeting

Date: 6-8-06

Members present: Aysegul Jezewski; Dylan Pollock; Janine Sisk; Daniel Flores

Meeting brought to order at 6:30pm by Aysegul Jezewski

Recorder: Daniel Flores

Committee members reviewed landscape list from Showplace and compared it with the current listing of addresses that was gathered at our walk throughs in the neighborhood that need dead bushes replaced as well as other missing landscape items in the front yards.

Both listings were conflicting. Committee decided to divide the listing amongst the members that Aysegul had and revisit the addresses again. It seems that some lawns have replaced missing or dead bushes.

Aysegul will check on the CCB (Certified Contractor Board) on NW Tree Specialist. This is the company that will remove the two dead oak trees soon.

Dylan will call John at Showplace about the prices on the 5 oak trees along NE 231st that need replacing. These trees will be replaced this summer.

The committee agreed to go with the bark dust, which will be a dark color and blend in better with the surrounding soil.

Committee had also discussed replacing the dead bushes sometime in early Fall of this year, due to the possibility of hot weather stressing the plants.

Committee will reconvene on June 12th, 2006, Monday evening to discuss the listing that everyone had agreed to re visit. This will give the committee an updated and accurate listing of what to order and the cost of buying and planting dead bushes.

Meeting adjourned 8pm
